HIGHLIGHT PROJECTS

WildRoga, Algonquin College

Hybrid Mobile Application & Web Dashboard
Technical Lead
Ottawa, ON / 2022

Managed the development process, planning proofs of concepts (POC) and organizing the Information Architecture (IA) to implement into the project. Confronted this process by working with different tools as Firebase, MUX Video, Stripe, and the Expo and Next.js frameworks.

Senior Help, Algonquin College

iOS Application
UX/UI Designer
Ottawa, ON / 2021

Designed an iOS application that implemented the user experience (UX) process, moving through concepts from research, analysis, design, prototype, user testing, low/mid-fidelity prototypes, and eventually a high-level design to complete this beautiful challenge.

GitHub Users, Algonquin College

iOS Application
iOS Developer
Ottawa, ON / 2021

Developed and designed this application using the open and official Swift language, used Alamofire to manage the API requests, implemented SwiftUI in the user interface, and finally merged everything with a custom design to complete this great goal.

Finning International, Globant

Angular & React Web Applications
Web UI Developer
Bogotá, COL / 2020

Labored on the Web UI Developer side. The responsibilities were developing and collaborating on internal applications for his portals. The main challenge was working with the Angular framework. Additionally, the gained skills were: observables (RxJS), unit testing, and flexbox.

Moon Palace, Ariadna Communications Group

Mobile Site & Web Site
Front-end Developer
Bogotá, COL / 2017

Moved the approved designs to code, and faced the development process using different tools and languages as JavaScript, CSS, HTML. Eventually, assigned on the quality control side and the production deployment to complete this monumental defiance.
